

TRAINY

About Trainy:

Trainy is uniting the fitness & sports industry. Its platform creates an ecosystem that brings together the best fitness trainers, sports coaches, training facilities, and fitness brands, so you can discover and review the best fitness stuff.

Our Story:

Founded in 2015, by fitness enthusiast Roy & Chandler, Trainy is headquartered in New York City.

As athletes who are always trying to look for the best training program/lifting belt/supplement, Roy & Chandler find themselves scrolling through hundreds of websites for hours and reading reviews from scattered places across the web to discover how to find the best stuff to improve their training.

As trainers, a lot of their friends, who are coaches for bodybuilding/football/swimming/wrestling, have a hard time finding enough clients. There is simply no major channel for them to promote themselves other than Instagram.

Similar problems exist for fitness clothing brands, training programs, meal prep services...

A place is needed to store all these awesome fitness content, compare them, and let people find out who is the best.

That's where Trainy comes into play.

TEAM UP, WE TRAIN.
